

Operations ...

Out of a growing need to provide a systematic and coordinated operational plan for event staffing, Partner's Security Management developed the Coordinated Event Management and Staffing system (CEMS). This system ensures that any event, large or small, follows the same systematic operational design for an effective and safe operation. It properly coordinates the staffing level to maintain proper supervision of guard personnel and resources. In addition, it provides for sufficient interaction with local law enforcement agencies and event managers.

Meet our Company ...

Partner's Security Management was formed in 1996 out of a growing need to provide clients with a variety of professional security and investigative services. As a female owned and operated business, it manages and operates a cadre of specialists, including guard managers, surveillance experts, and event coordinators. Our executive staff, investigators and personal protection specialists are seasoned police professionals who represent a vast range of experience and expertise from law enforcement agencies throughout Southern California.

We have worldwide resources and the flexibility to provide you and/or your company with a program designed specifically for you. Together we will determine the most effective implementation of our service for your business, event or client. We are fully licensed and insured, and registered with California's Bureau of Security and Investigative Services (BSIS).
